Arnold,

With over 20 years experience in the auto repair industry, I've found that Valley Yellow Pages' rates are much more affordable than the phone company's rates, and it gives my business the best return on investment. That is why I only advertise in the Valley Yellow Pages and not with the phone company.

This is my eighth year advertising in your Roseville, Citrus Heights, Antelope, & Granite Bay directory. I will continue to do so because it is a great source for finding new customers and it makes my business profit. It truly is an excellent partnership.

For any business looking to grow in any economic environment, I would recommend that they have a strong representation and exposure in the Valley Yellow Pages print and online directories.

Thank you for looking after my best interests. I appreciate your professional attitude and expertise that you provide my business. I look forward to many more years of advertising with Valley Yellow Pages.

M. Jay Rubash
